OUTDOOR LIVING PRODUCTS

Product Catalog

Built Locally, Supported Globally

VEKA is the world's largest extruder of vinyl lineals for the window and door industry. With a global presence in over 70 countries, including VEKA North America, we offer advanced materials for residential and commercial building applications. With a strong reputation for quality products and excellent customer service, VEKA has been a prominent player in the PVC industry for over 50 years. Founded in Germany in 1969 and still family-owned, VEKA prioritizes reliability, sustainability, and stability in its partnerships.

WE ACT

WE GROW

Solutions from Coast to Coast

VEKA has four key facilities across the United States, each with a specific function. The newest facility, based in Morganton, North Carolina, is dedicated to Outdoor Living Products and services the eastern U.S. and Canada. The Reno, Nevada facility provides services to the West.

VEKA's corporate operations are based in Fombell, Pennsylvania, where vital departments like engineering, marketing, and executive leadership reside. This strategic location not only represents the heart of the company's decision-making and innovation processes but also plays a critical role in production. During times of heightened demand or unforeseen events, the Fombell facility steps in as a supplementary production site for OLP, ensuring that VEKA's output remains consistent and meets the needs of its clients.

Recycled & Recyclable

VEKA captures its in-house startup material and run-offs, which are pulverized into PVC powder. This powder is introduced back into VEKAdeck and VEKA DualEdge® profiles for fence and rail shapes.

Performance additives in the outer, co-extruded surface aid in impact modification, heat reflectance and color retention.

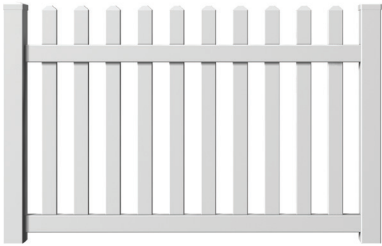

A Full Line of Profiles & Fence Systems

VEKA's fence and rail profiles allow for versatility in fabrication. Choose from our unique PVC fence system designs or be as creative as you like. The only boundary is your imagination.

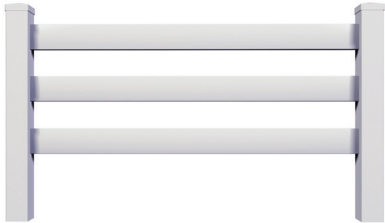

Our profiles outlast and outperform most other fence material. Save time and money on maintenance. PVC is safe for you and your family, requiring minimal upkeep without the use of harsh chemicals.

Most VEKA profiles are available in Classic White, Almond, Khaki and Stone. Ask your sales representative for color samples when you choose to install a fence made with profiles from VEKA Outdoor Living Products.

Transform Your Outdoor Space

VEKAdeck® is the perfect way to add value and beauty to any home. A cellular PVC deck board, VEKAdeck is ideal for homeowners, architects and builders.

VEKAdeck's long life, durability and low maintenance, along with a high return on investment, make it a superior board for residential and commercial deck applications.

An environmentally friendly alternative to lumber and composite deck boards, VEKAdeck is approved for ground contact without absorbing moisture or rotting.

VEKAdeck & Fascia Board, A Perfect Combination of Durability

Features:

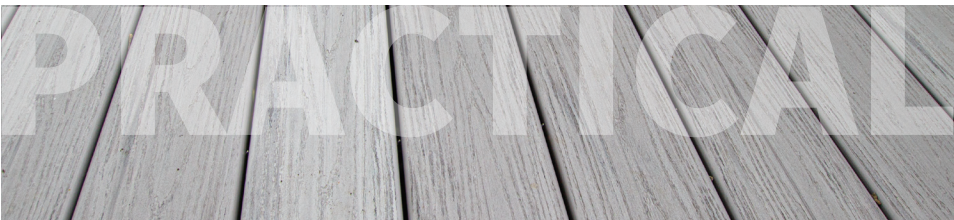

Together VEKAdeck and VEKAdeck fascia are designed to blend seamlessly. Both are made with a proven formula that has been around for 20-plus years. Install VEKAdeck on curves and semi-circles along with fascia trim for a unique custom design.

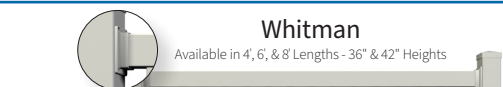

- VEKAdeck available in a 5.5" width and 1" thickness
- Fascia available in a true 12" width and 7/16" thickness, 8" riser fascia board coming soon!
- Natural-looking woodgrain pattern, matching VEKAdeck
- Installs traditionally, or with recommended fastener or screw systems
- Low maintenance, no paint or stain upkeep; cleans easily, saving you time and money
- Durability and performance assured with limited lifetime warranty, visit vekaolp.com for details
- VEKAdeck is also available in Groove, see recommended fastener list on vekaolp.com

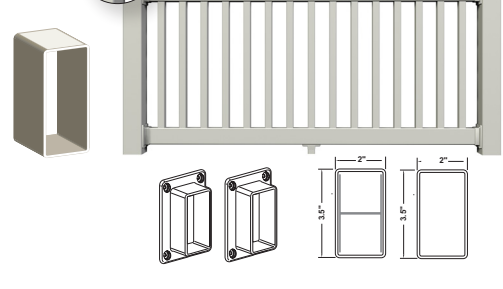

* Special Order Colors

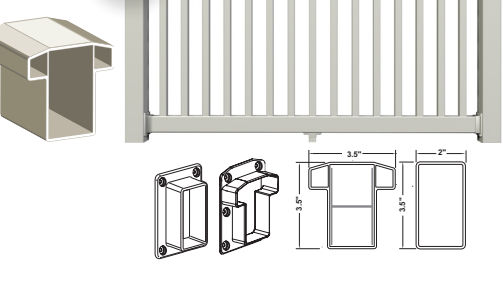

Whitman

Signature Variegated Fence

Signature fence by VEKA Outdoor Living Products solves the color challenges faced by many fence products. Our unique substrate formulation is tried and tested for over 50 years all over the world in a variety of PVC products. Our proprietary, variegated, ASA cap formulation is resistant to excessive heat buildup, aesthetically pleasing and impervious to insects and salt spray. The inherent fade-resistant properties make it the ultimate solution for modern outdoor living designs.

Available in four attractive colors, there are a multitude of combinations for you to choose, especially when you include our solid colors: white, khaki, stone and almond. You can combine our solid color and woodgrain laminates for more possibilities.

Signature Fence Features:

Designed to match seamlessly with VEKAdeck, our Signature profiles are made of the same proven formula as our decking. Realize the comfort and beauty without the headaches that other materials present.

- ASA cap is uniquely formulated for darker colors.
- Variegated extrusion simulates a non-repeating woodgrain pattern.
- DualEdge recycled substrate reinforces VEKA's commitment to environmental responsibility.
- Signature fence carries a 20-year limited warranty.*
- See your local sales representative for a list of available profiles and accessories

Rich Woodgrain Appearance

The natural appearance of woodgrain laminates looks as good as it performs. Your fence or handrail will have the look of real wood in color, texture and richness. Choose from seven different laminates that perform in exterior conditions.

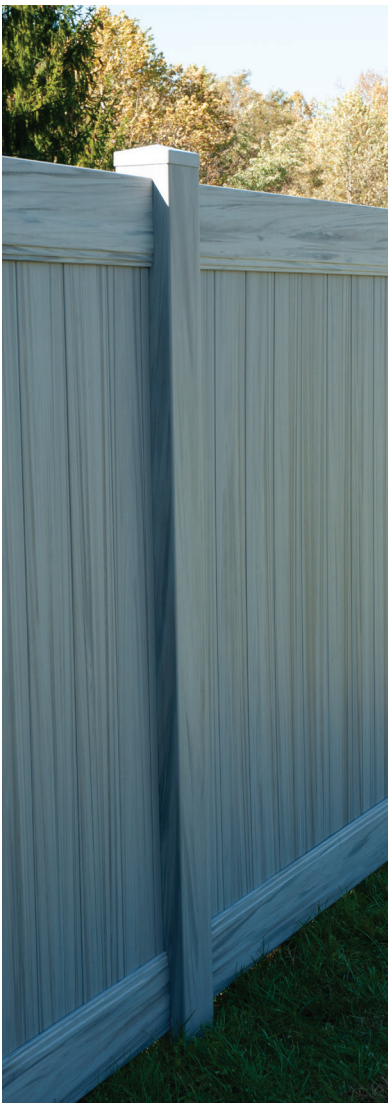

Color Your World

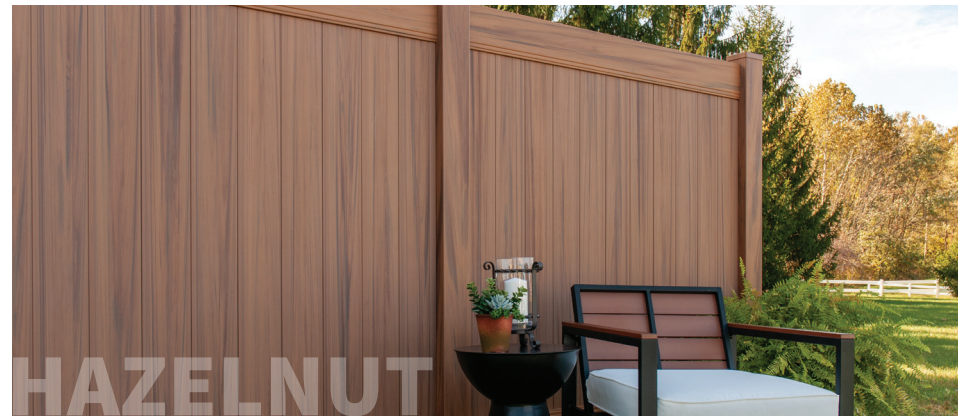

There is a world of possibilities for enhancing curb appeal of your property with color laminates. Choose from three distinctive solid colors that look as rich as an actual painted surface. These low-maintenance selections have a durable pebbled matte finish that remains beautiful season after season.

- Durability and performance assured with a 20-year limited warranty, visit vekaolp.com for details
- Consistent, repeatable woodgrain look
- Features three-layer, cool color-technology
